The organising committee will not be responsible for any discrepancy in the CPD summary. It is the sole responsibility of the delegate to ensure the attendance is properly recorded through our scanning system.

Hands-On Masterclass: Shape & Shine

Mastering Direct Veneers and Diastema Closure with Composite Artistry

by Prof. Dr. Paulo Monteiro

Date: 21/1/2026 **Time:** 9.00 a.m. - 12.00 p.m.

Venue: Kuala Lumpur Convention Centre (KLCC), Meeting Room 305, Level 3

Workshop Synopsis:

This hands-on workshop will provide participants with a practical, step-by-step approach to direct anterior composite restorations, focusing on two of the most common clinical challenges: composite veneers and diastema closure. Through guided exercises, attendees will learn how to select between multi-opacity composite systems for layered esthetics and universal single-shade materials for simplified workflows. Each participant will execute the complete workflow, from planning to finishing and polishing, with an emphasis on reproducing natural esthetics. Special attention will be given to the subtle details that enhance integration, surface texture, and gloss. Finally, participants will acquire evidence-based strategies for maintenance and follow-up, ensuring long-lasting results and patient satisfaction. Under the guidance of Prof. Paulo Monteiro, participants will learn how to sculpt form, control light, and recreate natural anatomy using modern composite systems.

The session will cover:

- Tooth preparation and surface conditioning for optimal adhesion
- Selection of single-shade vs. multi-opacity composite systems
- Use of new matrices and techniques for diastema closure
- Composite build-up, texturing, and polishing protocols for lifelike results
- Advanced surface characterization for enhanced depth and vitality

Each participant will execute exercises replicating real aesthetic cases — from diastema closing to complete veneer restoration — using contemporary materials and simplified workflows.

Join this immersive experience to refine your manual skills, elevate your aesthetic perception, and discover how simplicity can achieve spectacular results in daily restorative practice.

Hands-On Workshop by Prof. Dr. Paulo Monteiro

(MDA MEMBER/ NON-MDA MEMBER/ INTERNATIONAL DELEGATES)
